PROFILE

Computer Science graduate with experience developing Unity games using C#. Skilled in gameplay programming, debugging, problem-solving, UI implementation, and building interactive systems. Seeking an entry-level game development position where I can apply my technical skills, creativity, and passion for games.

GAME PROJECTS

Word Bombardment, iOS Mobile Game — *Unity Engine*

Personal Project | 2024-2025

- Developed and released an iOS mobile typing game where players type falling words to defuse bombs before they reach a village
- Programmed core gameplay systems including word spawning, typing validation, scoring, lives, power-ups, and difficulty scaling
- Designed multiple game modes, including Endless Survival and Impossible Mode
- Implemented mobile-friendly UI, menus, and gameplay flow
- Tested and balanced gameplay to improve pacing, challenge, and replayability

2D Roguelike Space Shooter — *Unity Engine*

Personal Project | 2025-Present

- Developed a 2D arcade-style space shooter inspired by classic space invaders gameplay
- Programmed player movement, projectile behavior, enemy waves, upgrade selection, and boss systems
- Built upgrade synergies, enemy role systems, and object pooling to support varied gameplay and better runtime performance

WORK EXPERIENCE

Davis Dental Lab, Wyoming, MI — *CAD CAM Technician I*

June 2023 - Current

- Design lifelike dental restorations such as splints, retainers, and mouthguards using 3Shape Dental Manager, a 3D scanning and design program
- Work independently with minimal supervision while completing detailed technical design tasks
- Take on additional responsibilities when team members are absent or leave the company
- Assist the IT department with internal computer and software issues for employees
- Use problem-solving skills to troubleshoot design, software, and workflow issues

SKILLS

Programming: C#, JavaScript, TypeScript, CSS

Game Development: Unity, Gameplay Systems, UI Implementation

Web/App Development: Angular, Ionic

Tools: Unity, Visual Studio Code, Git

SOFTWARE PROJECT

CalvinRoomFinder: Ionic, Angular

Senior Project | Sept 2022 - April 2023

- Developed a room-finding application using Ionic and Angular
- Contributed to front-end UI, routing, and application functionality
- Worked with a team to design and complete project features on schedule

EDUCATION

Calvin University, Grand Rapids, MI — *Bachelor of Science in Computer Science*

September 2019 - April 2023

EXTRACURRICULAR ACTIVITIES

Mary Free Bed, Grand Rapids, MI — *Wheelchair Basketball*

September 2017 - Present

- Developed a strong work ethic and ability to communicate and work as a team
